

Quality Policy Statement from General Management

Since its creation in 1991, airmotec is constantly improving the quality of its analyzers in order to better address the clients' needs and enter new markets.

This orientation is reflected in:

- multiple certifications:
 - ✓ ISO 9001:2008 "Quality Management System: airmotec". Airmotec is certified since July 2014 2014 (ISO 9001:2015 since July 2018)
 - ✓ TUV BTEX: Germany - 1996
 - ✓ CNR: Italy - 2006 & 2007
 - ✓ PA: China - 2010
 - ✓ MCERTS: in 2013 then renewed in 2018 according to the EN 14662- 3 and 15267-2:2009, norms for the measurement of benzene concentrations in ambient air and the production control of the manufacturer.
- the absolute commitment of Management to implementing and respecting Quality Management System within the regulatory and legislative requirements. The Quality Management System has been developed with the help of the Analytical Department Manager, who has appointed General Management representative.
- the involvement of all airmotec staff in the organization of the quality system. This entails redacting, applying, improving procedures and processes, as well as making technological improvement to its products. Compliance with the company's best practices at work by all staff is crucial.

This strategic choice to implement a quality policy statement is a guarantee of know-how, technological innovation and quality of services provided by airmotec. This choice also states our goal for continuous improvement of our customers, partners, suppliers and company's staff experience. The policy includes a development project which consist of three components: economic, social and environmental. Well established locally, our company relies on local actors, giving priority to suppliers in the Region when possible.

To this end, we are committed to providing financial and material resources along with necessary staff to put in place the Quality Management System with the aim that every individual can find meaning in their work on a daily basis.

Saint-Antoine, 20th of October 2022

Franck AMIET, President
