

ODORS & AIR MONITORING EXPERTISE IN ONLINE GC

**MONITORING UP TO 123 COMPOUNDS
WITH ACCURACY IN INDUSTRIAL AREAS**

VOCs analyzer C₆-C₁₂
airmoVOC - GC866

VOCs analyzer C₂-C₆
airmoVOC C2-C6

**On-line Mass Spectrometer
with heated transfer line**
DET QMS

Ultra sensitive Sulfur analyzer
airmo S

Automatic calibration
airmoCAL

airmoSCAN Xpert
Turnkey stand-alone solution

Suitable for each type of environment

Industrial or urban atmospheres

- Low levels of quantification (ppm/ppb/ppt)
- Reliable and stable results with data double check FID & Mass spectrometry (MS)
- No saturation of detectors with MS technology
- Reliable measurement of a large spectrum of compounds in air
- Sulfurs analytical module in option for complete odor-fingerprint
